Certification -- Curries Attack Resistant (5-aa10) Product, ASSA ABLOY Door Group

Attack Resistant steel doors and frames provided by Curries, an ASSA ABLOY Group brand, having visible light sizes as shown are certified by School Guard Glass to meet the requirements of 5-aa10 when installed per the installation instructions and with the provided glazing materials. Door glass is to be factory installed only, Sidelights and Borrowed Lights are field installed by others. **WARNING:** Failure to install and glaze per instructions using the proper supplied glazing materials will jeopardize the opening Attack Resistance performance to 5-aa10, void the product warranty and Attack Resistance verification.

Notes:

1. Sidelights (half or full) can be included on one or both sides of the opening
2. Optional welded-in horizontal and/or vertical mullions may be provided
3. Reference Currie's Attack Resistant Design Specification (DS-0139) for capabilities and limitations associated with frame profile, frame corner (miter/weld), anchors (type, quantity, location), and hardware (type, location).
4. Frames for new construction to be anchored as detailed, approved or defined by AADG or as tested
5. Frames for Retro-fit applications to be of proper materials and anchored as defined by AADG or as tested for Attack Resistance. The Customer is responsible for confirmation of existing frame conformance to AADG/SGG specifications. Failure to comply with use of specified designs, materials, anchors and SG5 glass installation will void the opening Attack Resistance performance to 5-aa10 and void the warranty.
