Perimeter Security Partners, LLC

5038 Thoroughbred Lane

Brentwood, TN 37027

To Whom It May Concern:

Calspan Corporation has been contacted by Perimeter Security Partners (PSP), LLC in Tennessee regarding their acquisition of two barrier systems from Weathers Manufacturing, formerly American Physical Security Group, LLC (APSG).

- Formerly, "CRB-240" Barrier System, will now be known as "Satyr-4 Crash Beam". System was initially tested on April 11, 2007
- Formerly, "CRB-K12-2" Barrier System, will now be known as "Satyr-12 Crash Beam". System was initially tested on April 15, 2010

Calspan acknowledges the transfer of this property to PSP, LLC and confirms that it was tested at our Buffalo, NY facility. PSP seeks to rename this barrier to reflect the current ownership. Calspan's acknowledgement recognizes that:

- Calspan has not subsequently tested or verified the barriers
- Calspan is providing this information based upon the assumption that the design/performance/construction/etc of the subject barrier has remained 100% unchanged from when the original testing certificate was issued
- Calspan is providing this revised certificate for name-change purposes only

Calspan further acknowledges that any changes to the PDC listing will be enacted between PDC and PSP, LLC.

Regards,

A handwritten signature in black ink, appearing to read "JG", written over a light blue horizontal line.
